ScanDock – Overview

ScanDock delivers scans from copiers and multifunction printers to the cloud. Devices upload via FTP or FTPS; your staff sign in with their Microsoft 365 account to view and download the PDFs.

*Deutsche Fassung: see chapter **Deutsch → Übersicht**.*

Guides (in preparation)

- Setup via the start link (Microsoft Entra ID)
- Configuring copiers (FTP/FTPS)
- Managing FTP accounts and permissions
- Viewing, downloading and deleting scans
- Renewing the client secret
